

(1) **CERTIFICATE No. TEST/58/B/2017**
entitling to label the product with
collective guarantee (safety) trademark „B”

(2) Name and address of applicant:

LED Labs Sp. z o.o.
ul. Zakopiańska 2C
30-418 Kraków

(3) Product name:

Aluminum profiles of the LUMINES series

(4) The right to use the certificate applies only to copies of products that meet the requirements of normative documents constituting the basis for issuing the certificate and are constructed in accordance with the technical documentation of the product presented for certification.

(5) Results of the conducted product tests have been listed in the Test report No. LT/192/2017 of 20.09.2017.

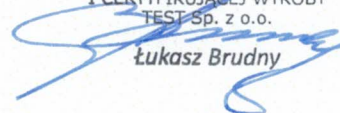

(6) The assessment, list of documents and test results, that form the basis of this certificate, are recorded in confidential report No. TEST/RW/36/B/17/GJ/2017 of 24.11.2017.

(7) This Certificate may be distributed unchanged. Partial reproduction and distribution of this Certificate is forbidden.

(8) This certificate is valid for a period from 27.11.2017 to 26.11.2020.

(9) Data necessary for identification of the product:

Aluminum profiles of the LUMINES series are made of aluminum alloy 6060 extrusion. They are designed for masking, protecting and discharging heat from LED light sources in decorative elements (in fixtures), which are used in furniture, suspended ceilings, etc. Part of the LUMINES series is not directly intended for use with the LED source but as mounting profiles for other profiles.

Technical parameters and dimensions of the products declared by the applicant are specified in the Instructions for use and handling no. 1/LL/2017, of October 2017.

(10) Basis for issuing the certificate:

– standards:

EN 755-2:2016

EN 755-9:2016

EN 12020-2:2016

(11) The condition of maintaining the validity of the certificate is compliance with obligations included in an agreement no. 123/2017/N of 27.11.2017.
